

TIRED OF PAYING FOR AGGREGATE AND THE ASSOCIATED TRUCKING COSTS?

Stretch your road building budget with ASP-200!
ASP-200 is an in-situ soil stabilization solution that
provides your county with the following benefits:

- ✓ Major cost savings for road base construction due to elimination of aggregate purchases and trucking costs.
- ✓ Eliminates the need for sub-base.
- ✓ Improved resistance to shear and rolling stress.
- ✓ Reduced susceptibility to soil moisture.
- ✓ Creates potential for a thinner wear layer.

Contact us to learn more
about how ASP-200 can
improve your operation.
