

SAFDEPAR™

Non-Hazardous Paraffin Dispersant

BENEFITS:

- ▶ Non-Hazardous
- ▶ Eliminates the Need for Flammable Products on Location
- ▶ Effective at Low Doses
- ▶ Increases Oil Yields and has worked in a Variety of Crude Oil and Reservoir Conditions with NO Adverse Effects.
- ▶ Eliminates Hot Oil Truck Treatments
- ▶ Reduce Non-Productive Time (NPT) of Producing Wells
- ▶ Reduces Electricity Consumption
- ▶ Increases Injectivity and Reduces Injection Pressure on SWD Wells affected by Paraffin.
- ▶ Cleans out Paraffin from Surface lines and Equipment
- ▶ Converts your Paraffin into Solution with the Crude Oil (a Saleable Product)
- ▶ Reclaims your Storage Tank Capacity
- ▶ Lowers Well Maintenance Costs
- ▶ Residual Production Well Treatments continue through Surface Lines and Equipment to Storage Tanks, or with the Water to Injection Well removing/preventing Paraffin buildup along the way.
- ▶ Safe for Offshore and Inland Barge Applications
- ▶ Versatile for Squeeze Jobs, Pipeline and Storage Tank Treatment
